A Better Timepiece for Automobiles Motor Boats and Yachts

Waltham 8 Day Timepieces

Made by the Waltham Watch Company

For Three Quarters of a Century the Acknowledged Leaders of the World in the Manufacture of Fine Watches

The Waltham Standard is the Standard of Progressiveness

In presenting the new Waltham Eight-day Timepieces to automobile and motor boat owners, we wish to emphasize the fact that the Waltham reputation for making timepieces of acknowledged superiority has been secured through over three-quarters of a century of progressive watch invention.

As the largest manufacturers of watches in the world, we could not now afford to place on the market anything short of the best for the purpose.

While the Waltham Eight-day Timepieces are strictly innovations they permit you to enjoy the same accuracy in timekeeping on your car or motor boat as you have been accustomed to expect from your pocket watch.

They are built to Waltham Standards which means they are constructed on correct principles embodying the highest quality material and construction, and will withstand the hard usage inevitable in motoring and motor yachting.

At the leading automobile and motor boat shows the Waltham Eight-day Timepieces created a sensation. You will now find them attached to the leading makes of cars and boats and they will be fitted to yours, if you so specify when ordering.

They are the only Eight-day Timepieces that are adjusted to temperature and have 15 jewels; fully guaranteed and surely destined to wide popularity.

Waltham Watch Company

Waltham, Massachusetts

For Automobiles

FOR AUTOMOBILES OR MOTOR BOATS

MODEL O—Actual Size, 4 inches wide

It is the only timepiece made for automobiles or motor boats having 15 jewels, and adjusted to temperature. The movement runs 10 days with one winding, the warning indicator signal giving notice that the movement should be wound three days in advance of its running down. It is an accurate and reliable timepiece, fully warranted. The case affords absolute protection from moisture, dust and theft.

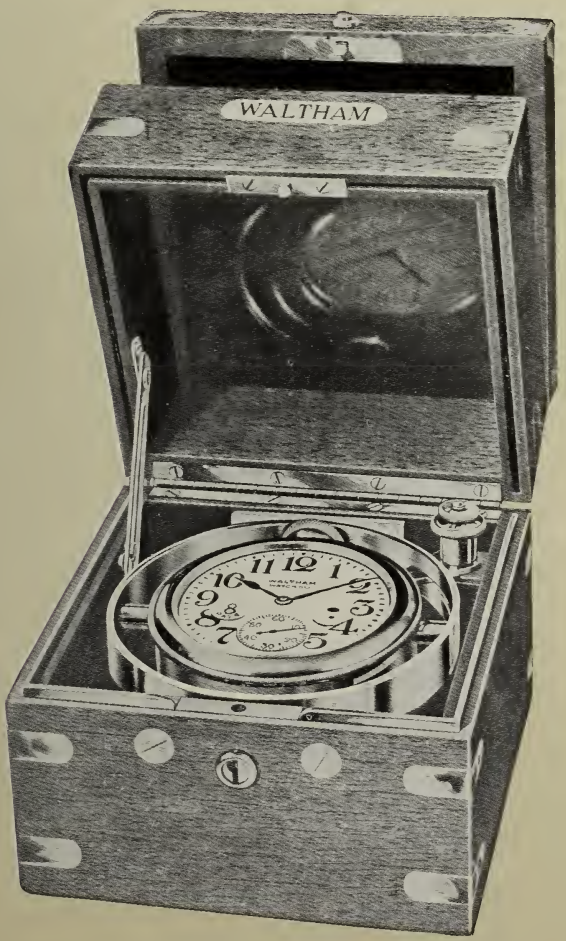
For Motor Boats and Yachts

WATERPROOF CASE—MODEL D

Four-fifths Actual Size

It is dust and weather proof; the inner casing containing the movement is secured to the outer case in such a manner that the watch cannot readily be stolen; has 15 jewels; is adjusted to temperature. The movement runs 10 days with one winding, the warning indicator signal giving notice that the movement should be wound three days in advance of its running down.

8 Day Lever Escapement Box Chronometer for Yachts



One-half Actual Size

Traveling or Desk Watch

The most accurate, reliable and convenient desk timepiece ever manufactured. Winds and sets at the top; has 15 jewels, is adjusted to temperature. The movement runs ten days with one winding, the warning indicator signal giving notice that the movement should be wound three days in advance of its running down. Finished in several kinds of leather.

Traveling or Desk Watch Closed

When the traveling or desk timepiece is closed, as shown above, it can easily be carried in the pocket or hand bag.

While traveling these timepieces will prove of constant use. For the sleeping room, they are especially desirable owing to the entire absence of noise.
